

31 May 76-

Dear Harold

Received your letter Friday and all I can relate regarding your involvement with "Playboy" is that I imagine there is no end to what people can and will do in regard to stealing. I know there are other and more glamorous names but it remains stealing—period.

If Steve Jaffe can be of assistance in some measure, here is my last record on his location:

10853 Weyburn
454-8639 Westwood, Calif.
(213) 826-6939 (also referred as Westwood Village)

Not to change subject, but in case I haven't given you Hall's last known address

91860 Avenue 64,
Mecca, Calif.

Back to Playboy rip-off —
Harold, if this means also

2-

you've lost some pictures that could have been enlarged, please let me know. The process this inventor in Vegas has works something like this (I'm not technically inclined, so this is my best explanation) His (Mr. Sderman Holt) devise to enlarge is based on prisms, which enlarge with no distortion and great detail, plus a dry chemical film that he uses for the reproduction. Since, I've talk^{ed} to you last Mr. Holt and I have had several conversations, and he has expressed a sincere desire to assist in any photo work you may desire. I will pay him whatever, his costs (they will be much more reasonable since his interest has been stimulated) and all publication rights go to you. Now, I can understand, especially after the "Playboy" deal, your apprehensions

-3-

However, if you have some known or public pictures (Oswald's shirt as I understand is of extreme interest) let this gentleman show you his craft. Then if it ~~is~~ shows to your liking, I will arrange your trip here with those photos you do not wish out of your possession. Does that sound fair?

The young man at the University (on the speaking engagement) Mr. Scott Lorange (he replaced Miss Ramey) is suppose to give me an audience this coming week. Just wanted you to know I'm still working on that.

As per a conversation, I tried Jim Garrison at his office (left 2 messages) Athletic Club (2 messages) call collect, but no answer - I'll continue till I can catch him in.

4

Maybe he has some new haunts I'm not familiar with but, damn it seems for what time, effort, money, etc. spent on him he would at least return the call! I have a telephone answering machine, so when I'm out he could have left a message.

If you don't mind please list the pictures you furnished Garrison so I can be specific, in case he asks.

Business wise I'm in sincere hopes of having everything well funded through the Corporation I'm with, and as such, even a trip to N.O. would be comfortable - finance wise (perhaps we could meet there ??) and personally see Mr. Garrison. I'm extremely pretruded at his failure to return my call, his office acknowledged he was in town so what's the excuse? —

-5-

If it's to your liking call me collect (702) 870-7007, prefer late evenings for any additional help. If you wish I'll converse with Jaffe in your behalf which will save you \$. If he's close to Tefner I'm sure he would help - he seemed sincere to me in our conversations - We met but once and that was in N.O. early '68 without referring to my notes.

Please give my very best to your wife and hope you both are doing well.

Sincerely,

J. Huston
